

**CARERS PLEASE NOTE:**

Any native wildlife, which comes into your care, **MUST** have a call number. If it does not have a call number please contact your district co-ordinator who will issue one.

After you receive a call number you **MUST** contact the **SPECIES CO-ORDINATOR** to inform him/her of what you have. When the species co-ordinator knows what is in care they can make arrangements to buddy them up when necessary. In some species it is far better to raise and release together.
